**REPRODUCTION:  
A BEHAVIORAL AND NEUROENDOCRINE  
PERSPECTIVE<sup>a</sup>**

*Editors and Conference Organizers*

BARRY R. KOMISARUK, HAROLD I. SIEGEL, MEI-FANG CHENG, AND  
HARVEY H. FEDER

---

**CONTENTS**

---

Preface. <i>By</i> BARRY R. KOMISARUK, HAROLD I. SIEGEL, MEI-FANG CHENG, and HARVEY H. FEDER.....	ix
In Honor of Jay S. Rosenblatt. <i>By</i> BARRY R. KOMISARUK, HAROLD I. SIEGEL, MEI-FANG CHENG, and HARVEY H. FEDER.....	xi
Historical Perspective of Daniel S. Lehrman, Founder of the Institute of Animal Behavior. <i>By</i> COLIN G. BEER, J. WAYNE LAZAR, and CAROL DIAKOW.....	xiii

**Part I. Behavior as a Regulator of Hormonal Mechanisms and Reproduction**

Introduction. <i>By</i> BARRY R. KOMISARUK and MEI-FANG CHENG ...	1
Individual Behavioral Response Mediates Endocrine Changes Induced by Social Interaction. <i>By</i> MEI-FANG CHENG .....	4
Social Induction of the Ovarian Response in the Female Ring Dove. <i>By</i> CARL J. ERICKSON .....	13
The Effects of Copulatory Behavior on Sperm Transport and Fertility in Rats. <i>By</i> NORMAN T. ADLER and JAMES PATRICK TONER, JR. ....	21
The Role of Ultrasonic Vocalizations in the Regulation of Reproduction in Rats. <i>By</i> RONALD J. BARFIELD and DAVID A. THOMAS.....	33
Female Vocalizations and Their Role in the Avian Breeding Cycle. <i>By</i> BARBEE L. INMAN .....	44

<sup>a</sup>This volume is the result of a conference entitled Jay S. Rosenblatt-Institute of Animal Behavior 25th Anniversary Alumni Conference held on June 6-8, 1984 by Rutgers-The State University of New Jersey in Newark, New Jersey.

Role of the Preoptic Area in the Neuroendocrine Regulation of Reproduction: An Analysis of Functional Preoptic Homografts. <i>By</i> MARIE J. GIBSON .....	53
Genital Stimulation as a Trigger for Neuroendocrine and Behavioral Control of Reproduction. <i>By</i> BARRY R. KOMISARUK and JUDITH L. STEINMAN.....	64
Neuroendocrinology of Coitally and Noncoitally Induced Pseudopregnancy. <i>By</i> JOSEPH TERKEL .....	76
Licking, Touching, and Suckling: Contact Stimulation and Maternal Psychobiology in Rats and Women. <i>By</i> JUDITH M. STERN .....	95
Interaction of Species-Typical Environmental and Hormonal Factors in Sexual Differentiation of Behavior. <i>By</i> CELIA L. MOORE .....	108
Prenatal Stress Disrupts Reproductive Behavior and Physiology in Offspring. <i>By</i> LORRAINE ROTH HERRENKOHL.....	120
Hormonal and Metabolic Factors Underlying Intraspecific Variation in Reproductive Social Behavior. <i>By</i> DALE F. LOTT .....	129
Advantages to Female Rodents of Male-Induced Pregnancy Disruptions. <i>By</i> ANNE STOREY .....	135
Reproductive Behavior as a Phenotypic Correlate of T-Locus Genotype in Wild House Mice: Implications for Evolutionary Models. <i>By</i> SARAH LENINGTON .....	141
The Role of the Vomeronasal Organ in Behavioral Control of Reproduction. <i>By</i> MARGARET A. JOHNS.....	148
Experiential Influences on Hormonally Dependent Ring Dove Parental Care. <i>By</i> GEORGE F. MICHEL .....	158
The Role of Perception in Habitat Selection in Colonial Birds. <i>By</i> JOANNA BURGER.....	170
Comparative Behavioral Endocrinology. <i>By</i> DAVID CREWS.....	187

## Part II. Hormones as Regulators of Reproductive Behavior

### A. PARENTAL BEHAVIOR

Introduction. <i>By</i> JAY S. ROSENBLATT.....	199
Hormonal Basis of Maternal Behavior in the Rat. <i>By</i> HAROLD I. SIEGEL.....	202
Maternal Responsiveness and Nest Defense during the Prepartum Period in Laboratory Rats. <i>By</i> ANNE D. MAYER.....	216
The Role of the Medial Preoptic Area in the Regulation of Maternal Behavior in the Rat. <i>By</i> MICHAEL NUMAN .....	226

Psychobiology of Rat Maternal Behavior: How and Where Hormones Act to Promote Maternal Behavior at Parturition. By ALISON FLEMING .....	234
Role of Prolactin in Avian Incubation Behavior and Care of Young: Is There a Causal Relationship? By JOHN D. BUNTIN.....	252

## B. SEXUAL BEHAVIOR

Introduction. By BARRY R. KOMISARUK and CARLOS BEYER .....	268
Elevation in Hypothalamic Cyclic AMP as a Common Factor in the Facilitation of Lordosis in Rodents: A Working Hypothesis. By CARLOS BEYER and GABRIELA GONZÁLEZ- MARISCAL .....	270
A Reevaluation of the Concept of Separable Periods of Organizational and Activational Actions of Estrogens in Development of Brain and Behavior. By CHRISTINA L. WILLIAMS .....	282
Extended Organizational Effects of Estrogen at Puberty. By JORGE F. RODRIGUEZ-SIERRA.....	293
A Two-Step Model for Sexual Differentiation. By JACQUES BALTHAZART and MICHAEL SCHUMACHER.....	308
Reciprocity in Neuroendocrine and Evolutionary Approaches to the Study of Reproductive Behavior. By CAROL DIAKOW.....	325
A Concept of Physiological Time: Rhythms in Behavior and Reproductive Physiology. By L. P. MORIN.....	331

## Part III. Biochemical Bases of Hormonal Action on Reproductive Behavior

Introduction. By HARVEY H. FEDER.....	352
Hormonal Control of Behavior—A Cautionary Note. By RICHARD E. WHALEN .....	354
Heterotypical Sexual Behavior: Implications from Variations. By JANICE E. THORNTON .....	362
The Role of Androgen Metabolism in the Activation of Male Behavior. By CHERYL F. HARDING .....	371
Steroid Hormone Antagonists and Behavior. By I. THEODORE LANDAU.....	379
Sex Steroids and Energy Balance: Sites and Mechanisms of Action. By GEORGE N. WADE.....	389
Steroid Receptors and Hormone Action in the Brain. By JEFFREY D. BLAUSTEIN .....	400

Noradrenergic Regulation of Progestin Receptors: New Findings, New Questions. <i>By</i> BRUCE NOCK .....	415
Reproductive Neuroendocrine Regulation in the Female Rat by Central Catecholamine-Neuropeptide Interactions: A Local Control Hypothesis. <i>By</i> WILLIAM R. CROWLEY .....	423
Hormone Effects on Serotonin-Dependent Behaviors. <i>By</i> LYNN H. O'CONNOR and CHRISTINE T. FISCHETTE .....	437
Hormonal Aspects of the Morphological Differentiation of Neuronal Clonal Cell Lines. <i>By</i> CHRISTIAN P. REBOULLEAU .....	445
Analysis of Steroid Action on Gene Expression in the Brain. <i>By</i> JOSIAH N. WILCOX .....	453
Index of Contributors .....	461
Subject Index .....	463

The New York Academy of Sciences believes that it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the authors of the papers that make up this *Annal* are their own and not those of the Academy. The Academy has no intent to influence legislation by providing such forums.
